

Please

Please...
Things ain't gettin better
Least not that I can see
So much crime and violence
and hate and cruelty
Muslims killin' infidels
Infidels killin' back
Christians cursing everything
Their uptight lives still lack

Please...

All I want's a little change, now

Please...

Yeah, just a little release

Please...

All I want's a little change, now

Please...

Yeah a little sweet release

Hearts are breakin' easier
Learning's gone to hell
Viruses get smarter
Goodness doesn't sell
Sorrow, always so close
Happiness so rare
I'm askin' anyone for help
God or man, I don't care

Please...

I don't care who's listenin'
I don't care who's there
Just give me what I'm askin' for
Please it's only fair
I've traveled the world over
Worked and kept on track
All I want's this little thing
Please don't turn your back

Please...
